

WEST ACRES AT ULLELAND

Once upon a time, a dream was envisioned by Nels and Katie Ulleland, who wanted to create an enchanting place, a place where evergreen trees grow tall and big, a place once called 100 Acre Woods.

As time passed, an endeavor to continue Ulleland's dream was pursued by the West family to create a place of trees, a tree farm, if you will. A place where nature worked its magic through-out the decades. A place where evergreens flourished and delighted people of all ages. A place where families enjoyed walking amongst the evergreens to pick their trees during the holiday season. A place of enchantment.

So, in honor of that dream, a community is rising amongst the trees, the neighborhood of West Acres @ Ulleland.

Inside twenty parcels you'll find exquisite custom designed homes and large 3–6 acre sized home sites where nature takes over creating a feeling of tranquility and enjoyment. A place called home. The homes are of exceptional quality construction with attention to detail, unique designs with custom touches throughout.

Superior quality, easy living homes and the tranquility of nature. A great combination. Northwest Country living at its best.

Live the Dream at West Acres.
